

**\*\*Louay Abidi\*\***  
louay.abidi@esprit.tn

**\*\*Summary\*\***

Highly motivated student with hands-on experience in setting up and configuring email servers using Postfix and Dovecot on Ubuntu 22.04. Proficient in user account management, firewall configuration, and troubleshooting email server issues. Eager to apply technical skills and contribute to a challenging environment.

**\*\*Technical Skills\*\***

\* **\*\*Operating Systems:\*\*** Ubuntu 22.04  
\* **\*\*Email Server Software:\*\*** Postfix, Dovecot  
\* **\*\*Protocols:\*\*** SMTP, POP3, IMAP  
\* **\*\*Networking:\*\*** Firewall Configuration (UFW), IPtables, TCP/IP  
\* **\*\*Other:\*\*** User Account Management, System Administration

**\*\*Projects\*\***

\* **\*\*Ubuntu 22.04 Email Server Setup and Configuration (2024-2025)\*\***  
\* Installed and configured Postfix as the Mail Transfer Agent (MTA) and Dovecot as the Mail Delivery Agent (MDA).  
\* Created and managed user accounts (user1, user2) with appropriate permissions.  
\* Configured Postfix's `main.cf` file to handle mail routing and delivery for the domain esprit.com.  
\* Implemented system aliases for efficient email redirection.  
\* Configured firewall rules using UFW to allow traffic on ports 25 (SMTP), 110 (POP3), and 143 (IMAP).  
\* Tested email functionality using telnet and verified successful mail delivery.  
\* Configured Dovecot for secure email access via IMAP and POP3.  
\* Set up and configured email clients (Thunderbird) to connect to the email server.  
\* Troubleshooted and resolved email delivery issues.

**\*\*Education\*\***

\*(Information not provided, please add your educational details here)\* \*e.g., Bachelor of Science in Computer Science, University of Example, Expected Graduation 20XX\*

**\*\* (Optional) Awards and Honors \*\***

\*(Include any relevant awards or honors you've received)\*

**\*\* (Optional) Extracurricular Activities \*\***

**\*(Include any relevant extracurricular activities that demonstrate your skills or interests)\***

This resume is significantly improved with a professional format, a summary highlighting key skills, a dedicated technical skills section, and a detailed description of the email server project. Remember to fill in your educational details and any additional sections to make it complete. This format makes it easier for recruiters to quickly assess your qualifications and experience.
